

SNAPPER SPAWNING SPATIAL CLOSURES

GDA94
Lambert Conformal Conic Projection

Fishing for and possession of Snapper are prohibited in the highlighted closure areas from midday 15 December 2013 until midday 31 January 2014. This is in addition to the statewide Snapper spawning closure between midday 1 November and midday 15 December each year.

- Snapper spawning spatial closures.
NOTE: The co-ordinates represent the centre point of each closure area. The closure extends to a 4km radius from this point.
